Determining your Life Insurance Benefit

For example, if your annual basic premium contribution is PKR 100,000 and you have selected a cover multiple of 20. Your total Sum Assured would be $100,000 \times 20 = 2,000,000$. In case of the death of the life assured, the policyholder will receive the Sum Assured or Cash Value (whichever is higher) of the policy. You can select your Sum Assured to be between (5 to 25) times your basic plan annual premium depending on your financial needs.

- The range of cover multiples available to the policyholder varies with the age at entry of the life assured and underwriting decision.

Maturity Benefit

At maturity of Sunehra Saver, you will receive the Accumulated Cash Value of your Unit Account(s) in lump sum which can be used to meet your family's expenses.

Value Added Benefits

This plan is carefully crafted to provide you an ultimate solution to your current and future needs. Sunehra Saver can be enhanced by opting any of the following benefits to protect you and your family against unforeseen eventualities.

- **Critical Illness Benefit: (Living Benefit)** This benefit helps you cope with expenses that might occur in case the life assured is diagnosed with any of the specified Critical Illnesses. This benefit advances the Sum Assured payable in case of death in order to help you with expenses that might occur during this tough time or meet the additional family, business or medical expenses.
- **Advance Family Expense Benefit:** Your loved ones inspire you to excel, driving you to work hard to keep them secure and happy. This benefit provides an additional regular income for a defined period to your family to help meet daily expenses in your absence.
- **Hospitalization Expenses:** Medical expenses can put you and your family under great financial pressure. A daily benefit is paid if the life assured is confined to a hospital to help you meet hospital expenses. The benefit payable is doubled in case the hospitalization is due to any of the specified Critical Illnesses. In case of confinement to ICU, an additional 50% of the daily hospitalization benefit is paid
- **Accidental Death or Dismemberment:** Accidental disability or death of the family's bread earner can drastically drop the household income and make it difficult for the family to make ends meet.
