What protection does Mayanaz Plan offer?

Mayanaz Plan is a flexible plan that gives you the ability to select the Sum Assured of your choice.

You can determine the Sum Assured by multiplying your annualized basic premium amount by the selected cover multiple (offered from 5 to 254) depending on your savings and insurance needs. For example: if your annual premium contribution is Rs. 250,000 and you have selected a cover multiple of 10, your total sum assured would be Rs. $250,000 \times 10 =$ Rs. 2,500,000.

The maximum sum assured that can be selected under Mayanaz Plan is up to the maximum cover multiple limit i.e. 254 (subject to limits defined by the Insurance Company).

If the life assured expires during the term of the plan, his/her beneficiaries

will be entitled to the sum assured, or the cash value, whichever is higher.

• Maturity Benefit

At the end of the term of the plan, the policy holder will receive the cash value accumulated during the term of the plan.
